PAGE 1: 2016 City of Greater Bendigo Council election survey of candidates

Q1: Please enter your name and Ward that you are standing in.

George Egan, Lockwood Ward

Q2: Do you agree with the following statements by the Intergovernmental Panel on Climate Change (IPCC)? "Warming of the climate system is unequivocal" and "Human influence on the climate system is clear".

Yes

What do you think we should do about it in Central Victoria? More local production/services and less reliance on well travelled goods and services.

Q3: Select the goals you support from the recently released City of Greater Bendigo Environment Strategy 2016-2021; which includes (click to select, leave blank if not supported)

Highly energy efficient systems and buildings

Zero recoverable resource sent to landfill

Council will support commercial scale agriculture & horticulture, and local urban food production

Council will promote green job & industry creation in Bendigo

Comments I want to empower all community groups as I believe they work much more efficiently and are far more driven than councils driving goals. As a councillor I will evaluate the many demands for council funds and treat driven community groups very favourably.

Q4: Do you support Council's plan to transition Greater Bendigo to an integrated transport and mobility network built around neighbourhoods containing most of residents needs and able to be accessed within a 10 minute walk or cycle or via public transport?

Comments Bendigo both rural and inner city residents so I do not believe we can treat them all the same. The council must represent all residents not just inner city residents. As a councillor I will evaluate all decisions based on the value to local residents, business and the costs to residents.

Q5: Do you support the proposition that our urban areas of tomorrow should be designed predominantly for people and not cars?

Do you have any particular ideas how we can get the community actively walking or riding far more regularly instead of using the car? Please enter ideas here: Of course all urban areas should be designed for people but I do not support your proposition that this has not been the case to date. In all decisions that the council make in urban planning the services and facilities required for residents must be carefully considered. Support for all forms of transport (walking, cycling, mobility scooters, motorcycles, cars and public transport) must all be considered and not ignored or alienated.

Q6: Would you support us having a network of connected and safe 'separated' bike paths and lanes criss-crossing our city and towns instead of the current mostly white lines painted on the road?

Comments

Such a proposal is not just a yes no answer I would have to evaluate the costs and usage of such a solution. We now have walkers, joggers, cyclists, mobility scooters, motorcycles, cars and public transport all of which must share the road network. The solution to this will require significant planning and costs. We can not just deal with cyclists on their own.

Q7: The Council has approved a Cultural Diversity and Inclusion Plan to encourage fairness and equality for all Bendigo's citizens. Do you support this plan?

Yes

Comments

Fairness and equality for all Bendigo's citizens is a primary goal of mine.

Q8: Will you work to ensure the Cultural Diversity & Inclusion plan is implemented effectively?

Comments

Until I am in council I cannot commit to a single plan ahead of others. All coucilors must ensure all residents are treated open and fairly.

Q9: Do you think a Council can represent many views, but act harmoniously?

Yes

If you answered yes, how will you contribute to the Council working together harmoniously?

This is a key role of all coucilors as the council must ensure that all residents are treated in a open and fair manner. This survey responses shoould only be reproduced in full and responses should not be selectively extracted.
