#### PAGE 1: 2016 City of Greater Bendigo Council election survey of candidates

Q1: Please enter your name and Ward that you are standing in.

Whipstick

Q2: Do you agree with the following statements by the Intergovernmental Panel on Climate Change (IPCC)? "Warming of the climate system is unequivocal" and "Human influence on the climate system is clear".

Yes

**What do you think we should do about it in Central Victoria?** Climate change is an impact we all have a responsibility to deal with. Reducing waste, conserving energy and water and softening the impacts of our hard built infrastructure by utilising more natural and living systems.

Q3: Select the goals you support from the recently released City of Greater Bendigo Environment Strategy 2016-2021; which includes (click to select, leave blank if not supported)

100% renewable energy generation from local & regional sources

Highly energy efficient systems and buildings

Zero recoverable resource sent to landfill

Council will support commercial scale agriculture & horticulture, and local urban food production

Council will promote green job & industry creation in Bendigo

Council will fund initiatives like Sustainability Awards and the Community Sustainability Festival.

Council will empower the City of Greater Bendigo Green Team with a budget and give them accountability for the City's own waste and energy goals

Council will work with businesses and community to secure 100% renewable energy for all Greater Bendigo residents & businesses

**Comments** Part of the SEAC committee that helped guide the recommendations and process.

Q4: Do you support Council's plan to transition Greater Bendigo to an integrated transport and mobility network built around neighbourhoods containing most of residents needs and able to be accessed within a 10 minute walk or cycle or via public transport?

Yes

**Comments** A positive strategy that can help reduce energy use, traffic and provide a more liveable and connected neighbourhood.

Q5: Do you support the proposition that our urban areas of tomorrow should be designed predominantly for people and not cars?

Yes

**Do you have any particular ideas how we can get the community actively walking or riding far more regularly instead of using the car? Please enter ideas here:**

Shared paths, actively involving the community in the design and functionality of open space as is demonstrated with the Iron Bark Gully process and facilitated by project RENEW which I chair. This is a socially engaging model that includes the community, provides ownership to them and includes the Dja Dja Wurrung whom have both a say and legislated responsibilities with crown lands.

**Q6: Would you support us having a network of connected and safe 'separated' bike paths and lanes criss-crossing our city and towns instead of the current mostly white lines painted on the road?**

Yes

**Comments**

Started to happen and with the connection of the Bendigo creek linear trail through the middle of Bendigo can create both a unique and exciting network of paths that link most schools and neighbourhoods in the city. They will predominately follow our streams and it would be great to see them managed by the Dja Dja Wurrung people and local communities to provide both people and wildlife corridors.

**Q7: The Council has approved a Cultural Diversity and Inclusion Plan to encourage fairness and equality for all Bendigo's citizens. Do you support this plan?**

Yes

**Comments**

Most other councils in Victoria already have one and it was identified in the Independent review of council as being required.

**Q8: Will you work to ensure the Cultural Diversity & Inclusion plan is implemented effectively?**

Yes

**Comments**

I have worked on the committee to deliver the plan for the council and people of the region and people of all nationalities have and continue to make a huge contribution to our culture and community.

**Q9: Do you think a Council can represent many views, but act harmoniously?**

Yes

**If you answered yes, how will you contribute to the Council working together harmoniously?**

People need to be respectful of other cultures, views and ideas. This is not what I saw with the placards and demonstrations held by the protesters to the mosque. What the council has done is not confront but put in place a raft of policies and actions that have seen it through these difficult times. The interfaith council, Cultural and diversity plan, RAP process etc. We need to continue to action these as set out in the plans and work with the community to be a welcoming and inclusive society.
