#### PAGE 1: 2016 City of Greater Bendigo Council election survey of candidates

Q1: Please enter your name and Ward that you are standing in.

Margaret O'Rourke - Eppalock Ward

Q2: Do you agree with the following statements by the Intergovernmental Panel on Climate Change (IPCC)? 'Warming of the climate system is unequivocal' and 'Human influence on the climate system is clear'.

Yes

What do you think we should do about it in Central Victoria? We need to educate our communities more on what our actions are contributing to. To do nothing is not negotiable.

Q3: Select the goals you support from the recently released City of Greater Bendigo Environment Strategy 2016-2021; which includes (click to select, leave blank if not supported)

100% renewable energy generation from local & regional sources

Highly energy efficient systems and buildings

Council will work with businesses and community to secure 100% renewable energy for all Greater Bendigo residents & businesses

Council will empower the City of Greater Bendigo Green Team with a budget and give them accountability for the City's own waste and energy goals

Council will fund initiatives like Sustainability Awards and the Community Sustainability Festival.

Council will promote green job & industry creation in Bendigo

Council will support commercial scale agriculture & horticulture, and local urban food production

Zero recoverable resource sent to landfill

Comments I agree with all of these areas in varying degrees. Some of these goals are ambitious which is exciting; the City is on a journey to ultimately to and achieve the outcomes over a 20 year period.

Q4: Do you support Council's plan to transition Greater Bendigo to an integrated transport and mobility network built around neighbourhoods containing most of residents needs and able to be accessed within a 10 minute walk or cycle or via public transport?

Yes

Q5: Do you support the proposition that our urban areas of tomorrow should be designed predominantly for people and not cars?

Yes

Do you have any particular ideas how we can get the community actively walking or riding far more regularly Creating a culture for this to occur is not easy. I am seeing that it is improving and the 10 minute walk or cycle neighbourhoods is an extremely big part of this. Public transport is also a key and although Bendigo has made some gains we still have a great deal to do. Education programs at primary school

**instead of using the car? Please enter ideas here:** are critical as each generation matures the shift will come from within. 35+ is where the challenge lies. Facilities such as the O'Keefe Trail has been an important area of infrastructure which is well used. Regular promotions which does happen from time time of getting people to ride to work/walk to school etc

**Q6: Would you support us having a network of connected and safe 'separated' bike paths and lanes criss-crossing our city and towns instead of the current mostly white lines painted on the road?**

Yes

**Comments**

I would support something of this nature and obviously it would need to be costed out accordingly to understand its feasibility and a budgeted process. Many cities have this now and many European cities have always had this. We need to look at ways that will make activities safe, and easily accessible for people.

**Q7: The Council has approved a Cultural Diversity and Inclusion Plan to encourage fairness and equality for all Bendigo's citizens. Do you support this plan?**

Yes

**Comments**

I was a participant in the process. Very supportive

**Q8: Will you work to ensure the Cultural Diversity & Inclusion plan is implemented effectively?**

Yes

**Q9: Do you think a Council can represent many views, but act harmoniously?**

Yes

**If you answered yes, how will you contribute to the Council working together harmoniously?**

Through my experience as a manager in Telstra and being on boards involves lots of collaboration, including with robust discussion. I have lots of experience in contributing respectfully and to being part of bringing divergent views together to a mutually acceptable decision. I enjoy bringing people together.
