PAGE 1: 2016 City of Greater Bendigo Council election survey of candidates

Q1: Please enter your name and Ward that you are standing in.

Matt Emond Lockwood Ward

Q2: Do you agree with the following statements by the Intergovernmental Panel on Climate Change (IPCC)? 'Warming of the climate system is unequivocal' and 'Human influence on the climate system is clear'.

Yes

What do you think we should do about it in Central Victoria? There is no question that human influence on the climate system is clear and warming of the climate system is unequivocal. As a community it is important to work on the fair implementation of our environment strategy in a sustainable and continuous way.

Q3: Select the goals you support from the recently released City of Greater Bendigo Environment Strategy 2016-2021; which includes (click to select, leave blank if not supported)

- 100% renewable energy generation from local & regional sources
Council will empower the City of Greater Bendigo Green Team with a budget and give them accountability for the City's own waste and energy goals
Council will work with businesses and community to secure 100% renewable energy for all Greater Bendigo residents & businesses
Council will fund initiatives like Sustainability Awards and the Community Sustainability Festival.
Council will promote green job & industry creation in Bendigo
Council will support commercial scale agriculture & horticulture, and local urban food production
Zero recoverable resource sent to landfill
Highly energy efficient systems and buildings

Comments The decisions we make today will impact the lives of our children tomorrow. We need to ensure that Bendigo continues to grow and supports sustainable businesses and attract new green jobs and industry that can deliver local jobs and contracts for locals first.

Q4: Do you support Council's plan to transition Greater Bendigo to an integrated transport and mobility network built around neighbourhoods containing most of residents needs and able to be accessed within a 10 minute walk or cycle or via public transport?

Yes

Comments It's not sustainable for it to take up to an hour to get from our growth corridors to the CBD by public transport. To encourage people to use public transport it needs to be efficient and fast. Also a cluster of vibrant community hubs across Great Bendigo supports authentic community development where our residents needs can be met and reduces the reliance on the CBD.

Q5: Do you support the proposition that our urban areas of tomorrow should be designed predominantly for people and not cars?

Yes

Do you have any particular ideas how we can get the community actively walking or riding far more regularly instead of using the car? Please enter ideas here:

I agree in principle. There needs to be a fair and sustainable balance between the two.

Q6: Would you support us having a network of connected and safe 'separated' bike paths and lanes criss-crossing our city and towns instead of the current mostly white lines painted on the road?

Yes

Comments

One of the ways to ease congestion on our roads is safer and easier access for bikes across the city. Congestion and road safety are major issues being expressed to me by residents of Lockwood Ward. This initiative would also support accessibility issues for other wheeled vehicles including disability services and an ageing community.

Q7: The Council has approved a Cultural Diversity and Inclusion Plan to encourage fairness and equality for all Bendigo's citizens. Do you support this plan?

Yes

Comments

All residents in Bendigo have the right to live free from discrimination.

Q8: Will you work to ensure the Cultural Diversity & Inclusion plan is implemented effectively?

Yes

Comments

Bendigo's strength is its diversity. I will be working hard to ensure that the City of Greater Bendigo puts community first.

Q9: Do you think a Council can represent many views, but act harmoniously?

Yes

If you answered yes, how will you contribute to the Council working together harmoniously?

Growing up in Spring Gully I was taught about decency, respect and the importance of cohesion to getting the job done. I will bring these values to Council. Seeking to understand before being understood is a value that would serve our Council well.
