

Candidate	Party	Environment / Sustainability / Energy								Sustainable Active Travel & Public Transport				Community Wellbeing			
		Question 2: Do you believe that human activities are a major cause of global warming? What are your views and your party's policy on climate change; include greenhouse gas emissions reduction target(s) if applicable?	Question 3: Does your party support transition to renewable energy? Specify target(s) if applicable?	Question 4: Do you agree that use of coal for electricity generation must be close to 0% by 2050? What are your views and your party's policy on coal mining for electricity generation including the 'Adani' mine in Queensland?	Question 5a: Will you support the following forms of electricity generation in future? - Upgrading of existing coal burning power stations? - New coal burning power stations? - Nuclear power stations? <i>(Note: A positive response represents NOT supporting coal and nuclear)</i>	Question 5b: Will you and your party support the following forms of electricity storage into the future? - Pumped hydro energy storage? - Residential, community and large scale battery storage?	Question 6: Will you advocate for, support and fund community owned renewable energy projects including the Community Power Hub Bendigo?	Question 7: Please indicate your party's priorities: - economic growth - jobs - environmental sustainability Do you believe all can be achieved together?	Question 8: Will you and your party support action to reduce waste production and increase recycling across Australia? What is your party's policies with regard to waste and recycling?	Question 9: Do you support our urban areas to be designed predominantly for people and not cars and would you support and fund the required planning and transport changes so cities of say around 100 - 300,000 people (like a future Bendigo) are welcoming and liveable for both residents and visitors with many inviting urban green and cool spaces?	Question 10: Would you support and fund for Bendigo a network of connected, safe and comfortable 'separated' bike paths and lanes and shared user trails criss-crossing our city and towns enabling up to approximately 70% of the population, aged 8 to 80, to ride for everyday transport and supporting walking and active travel?	Question 11: Support and would seek funding for Bendigo and the wider region a true dual track high speed rail (200 and preferably 250 km/h plus) connection to Melbourne including full track separation of regional rail from the Melbourne Metro network	Question 12: Would you proactively support a rapid transition to electric and hydrogen powered vehicles in Australia and if so how? What are your party's relevant policies in this regard?	Question 13: Will your party support a global push to share the responsibility of asylum seekers, including closing our off shore detention centres, bringing all detainees to Australia and creating a fair migration scheme that prioritises those seeking asylum?	Question 14: Will your party implement policies to eliminate tax avoidance by large corporations and ensure the tax burden is shared fairly, based on level of income?	Question 15: Does your party support the privatisation of health services? <i>(Note: A positive response represents health services remaining in public hands)</i>	Question 16: Will your party implement measures to address voter concerns about lack of wage rises, reduction in disposable income and the declining ability to save?
